Indoor & Outdoor Furniture

Furniture for indoor classrooms and libraries, plus outdoor furniture for school and childcare spaces. Share the location and intended use for a suitable selection and quotation. Products pictured in this collection are indoor furniture.

Separate from any existing quotation

This unpriced collection does not revise an existing quotation. Final written quotations confirm exact models, specifications, finishes, inclusions and prices. Classroom quantities are individual pieces; packs and pricing are confirmed separately. The Library selection is additional to the classroom schedules.

Product references and room concepts

TS, SO, RQ, AD, PP and CR codes identify this collection; compare prior quotations using factory models. Supplier product cards and schedules govern the furniture selection. Existing generated classroom scenes illustrate atmosphere; layouts and product details may vary.

All proposed nap cots are CR-010 / factory 82092 at 140 x 58 x 20 cm. Infant sleep and feeding equipment remain unselected. Library sofa module quantities and the large bookcase installation are confirmed for the measured space.
